

Leave the world better than when you came.....

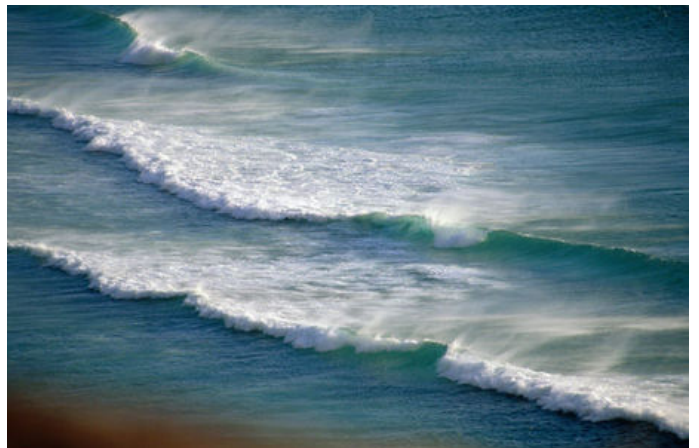

Mar y Sol is my creation. I spent countless hours and dollars making my complexes come alive. I panted my trees and give as much as I can when possible. When staying in any of my condos, I ask with humbleness, that you take care of them. Please turn off the air conditioners when not in the apartments, the electric bill is double of what normal cities charge.

I had guests that have left me nice gifts, such as small mango tree that this year bared fruit and others with great friendships. I do ask you to leave the condo, the way you received it and send me a quick email or letter telling me how your stay was. This communication is real important for me and future guests. I love my condos and want to make people happy.

Fernando Suarez

I guest of Mar y Sol Condos promise to be conscious of how take care of the condo. Please print sign and fax or email back with agreement.
